Williamsburg, Virginia

Colonial Williamsburg is the nation's largest and oldest outdoor living history museum. It portrays 18th-century Williamsburg in all its beauty and grandeur, just as it appeared on the eve of the American Revolution.

Colonial Williamsburg bridges Virginia's past and present, with remnants of the past preserved amid the cultural and commercial bustle of the modern day. Throughout the city, an engaging mix of sights, sounds and activities helps visitors reconnect with America's past and become active participants in 18th-century life. Not only can visitors enjoy the restored buildings, but also actors recreate the everyday lives of early settlers. On Colonial Williamsburg's 173 acres, 88 original 18th- and early 19th-century structures, such as the courthouse, have been meticulously restored. The site curators are dedicated to maintaining the period's integrity in every detail from pieces of furniture, pottery, china, glass, silver, pewter, textiles, tools, and carpeting, to landscaping.
